

### CAMPING WITH COTTONWOOD

On July 14th and 15th, eleven students from Casa de la Esperanza Learning Center participated in an overnight camping adventure with the Cottonwood Institute at the Cal-wood Education Center. It was a wonderful camping experience. Students participated in day and night hikes, group activities, and connected to the mountain environment. As a service learning project, students assisted removing wood to help control fire hazards. The group relocated the wood to the nearby road so that it could be hauled by truck and made into mulch. This kids were had so much fun they wanted to stay longer! We look forward to another great camping experience next summer. We enjoyed the beauty of nature in Colorado.

**THANK YOU CAL-WOOD &  
COTTONWOOD INSTITUTE**
